For a quarter of a century the money of the Interests has been paying the political bills of the nation. And the Interests have been receiving in return the legislative favors of those elected to office by its money. As far as Wilson and Marshall, their ticket and the Democratic National Committee are concerned, these things are at an end.

Wilson's program calls for a National House Cleaning.

He has said to the posple—"Break into your own house and live there. And I want you to examine very critically the character of the tenants who have been occupying it. It is a very big house and very few people have been Hotalin it; and the rent has been demanded of you and not of them. You have paid the money which enabled them to live in your own house and dominate your own premises."

Election Day is going to be Moving Day for the old seasont.

The people are going to move into their own house on Movember ich. But first they have got to house clean. But with move and pails, acrahbing brushes and passics means. But with their deliars, clean, hard-coursed deliars which will drive out the taineed cause and pay the moving expenses which the old arrogant avertained tenants have paid with bribes in years game by.
